

The James Madison Institute Presents
**2026 JACKSONVILLE
LUNCHEON**

TUESDAY, OCTOBER 29, 2026 | JACKSONVILLE, FL

Featuring Special Guest Speaker

KIMBERLEY STRASSEL

WALL STREET JOURNAL COLUMNIST & AUTHOR

For over 35 years, The James Madison Institute has been Florida's leading voice for economic freedom, individual liberty, and limited, accountable government. Through rigorous research, bold ideas, and effective advocacy, JMI works to shape the policies that keep Florida a national model of prosperity and opportunity.

Join JMI for an exclusive Jacksonville luncheon featuring Kim Strassel, one of the nation's most respected voices on politics, policy, and the free press. As a member of the Wall Street Journal's editorial board and author of the "Potomac Watch" column, Strassel brings unmatched insight into the issues shaping our state and nation.

This luncheon brings together Jacksonville's business and civic leaders not only for a compelling conversation with a leading national commentator, but to invest directly in JMI's continued work advancing free-market solutions and championing liberty across Florida. Every sponsorship helps power the research, education, and advocacy that make real policy change possible.

TABLE SPONSORSHIP - \$1,000

As a Table Sponsor, your organization will receive:

- Eight (8) seats at a reserved table, with elevated placement for premier visibility
- Recognition on the event's sponsor board
- Logo placement on all event communications and promotional materials
- The opportunity to submit a question for Kim Strassel during the program, time permitting*

Table Sponsors are essential partners in JMI's mission. Your support directly fuels the Institute's efforts to advance sound, freedom-oriented policy throughout Florida — and we're proud to recognize you as part of that work.

**For sponsorship inquiries, please contact
Brian Hickey, VP Of Advancement,
bhickey@jamesmadison.org / 850-386-3131**

Join us in supporting JMI's mission and reserve your table today.

*Due to time constraints, not all submitted questions may be able to be addressed during the program.
